

# COMMUNITY AND LOCAL GOVERNMENT ASSISTANCE

*Providing a sustainable transportation system and quality services that are embraced by our communities and add value to our customers.*

# DISTRICT MUNICIPAL SERVICES UNITS

Each PennDOT District maintains a Municipal Services Unit staffed with representatives to help municipalities and counties navigate Liquid Fuels Funding and many other programs offered through the Commonwealth. The Municipal Services Units may be involved in the following:

- **Municipal Liquid Fuels Funding;**
- **County Liquid Fuels Funding;**
- **Highway Turn Back Program;**
- **Automatic Red Light Enforcement Program (ARLE);**
- **Multimodal Program;**
- **Green Light Go Program (GLG);**
- **Winter Municipal Agreements;**
- **Agility;**
- **Pennsylvania Infrastructure Bank Loans (PIB);**
- **Local Bridges;**
- **and other programs as needed.**

While the depth of involvement in each program may vary by district, the units serve as a source of information and direction for those municipalities in applying for or expending funds from these programs. They also serve as a resource for navigating the programs and providing contacts of personnel with knowledge about the programs. In addition, they act as a liaison between PennDOT and local government, provide technical assistance, assist with yearly reports, assist with road bonding, and process road additions to the Municipal Liquid Fuel Inventory on which payments are based. **Contacts are listed on page 10.**

## SURVEY OF FINANCIAL CONDITIONS REPORT NOTE

The Department of Community and Economic Development requires that the Survey of Financial Conditions Report be submitted by March 15<sup>th</sup> each year. However, in order to receive the Municipal Liquid Fuels on March 1<sup>st</sup> municipalities must complete the Survey of Financial Conditions Report before any payment may be released. Municipalities should contact their designated **Financial Consultants** to obtain the date the report must be submitted by each year to ensure Municipal Liquid Fuels payments are timely.

**GET TO KNOW YOUR MPO or RPO!!!**

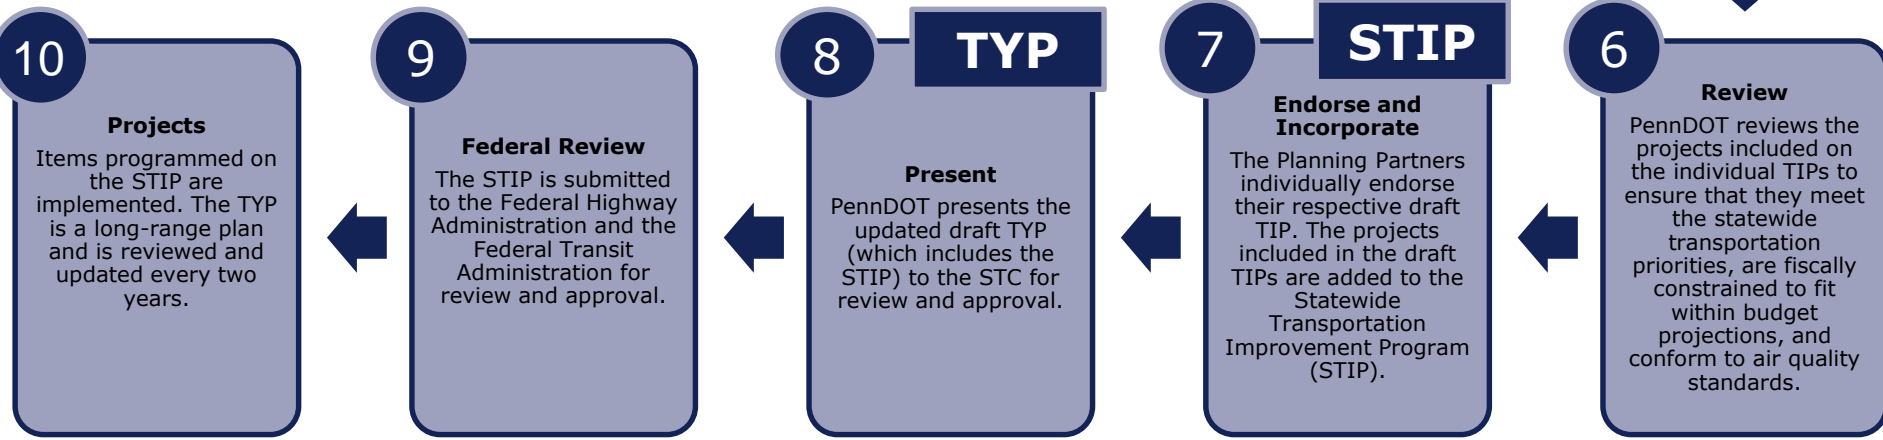

These organizations provide a forum where decision-makers identify issues/opportunities and make informed decisions regarding the programming and implementation of transportation projects and services that address these issues and opportunities. MPOs are required to develop and maintain a Long Range Transportation Plan of at least 20 years and a Transportation Improvement Program (TIP) that covers four years. MPOs are supported by Federal and State Planning Funds.

**Contacts are listed on page 12 and 13.**

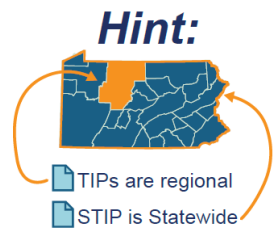

# FROM PLANS TO PROJECTS

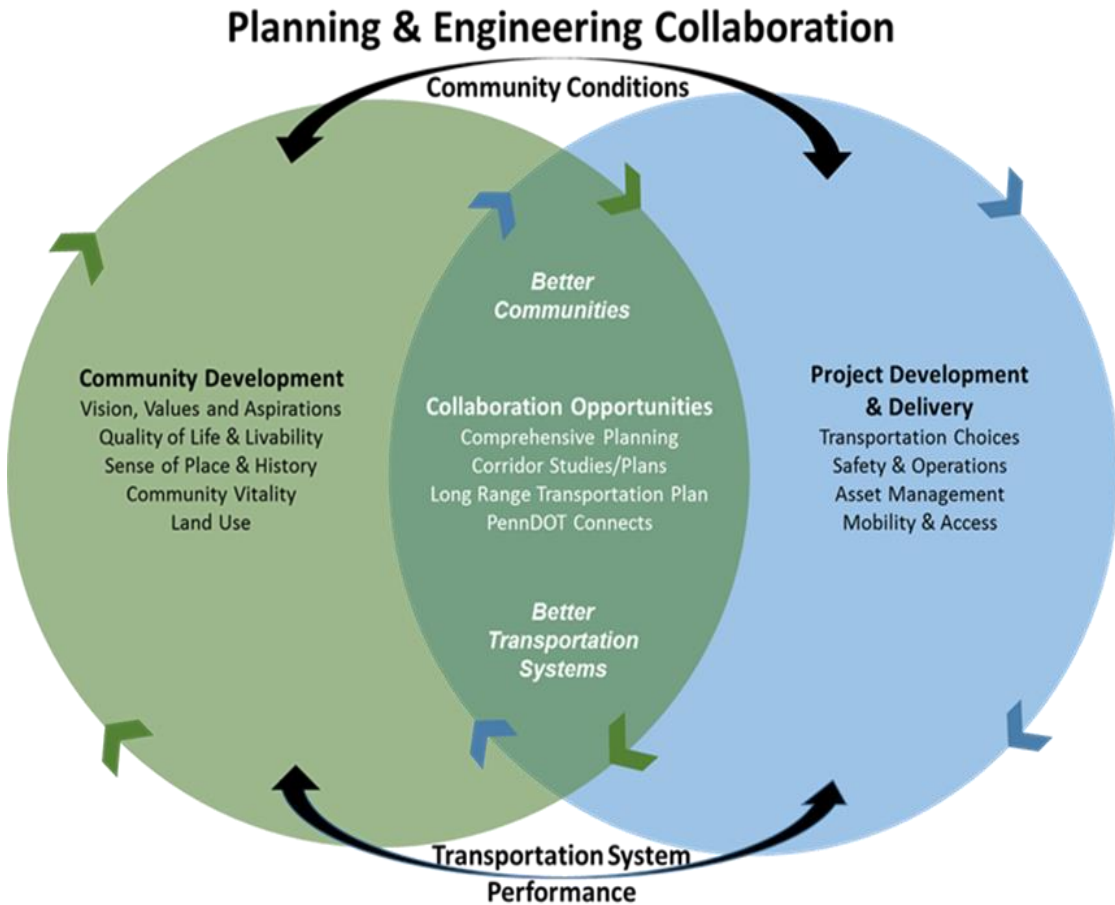

*Limited funds means planning and prioritizing!*

The Planning Partners each develop a **TIP** which reflect the first 4 years of the **TYP**. The **STIP** covers the **TIPs** for the entire state. In PA our **TIPs** are updated two years to coincide with the **TYP** update.
